# CURE

**Hi Team-**

I started my fundraising this year with the funds saved from recycling bottles and cans for the past year, which has been a slow but steady way to raise money. In an effort to continue to fundraise, I am asking for your help. For the remainder of the season at our Saturday trainings, if you have any aluminum cans you would like to donate, I will gladly take them with much appreciation. I would ask for only aluminum cans at this time because aluminum is king in the recycling world, and they can be crushed easily so I can fit them alongside my bike in the back of my car. Thank you. Corinne
